5. **WRITTEN EVALUATION:** In the space below, please describe in some detail the applicant's abilities. In particular, comment on the applicant's potential as an undergraduate student and as an engineer or scientist including major academic strengths and weaknesses, versatility, and initiative. We are particularly interested in the student with high potential that may not be reflected in the overall undergraduate grade point average. Please be specific in discussing the qualifications of such a student. Your comments here are of particular importance in the selection process. *(If a separate sheet is used for this evaluation, please clearly indicate the applicant's name.)*
